SLEEPYHEAD SANCTUARY

The Most Beautiful Sleep

Sleepyhead's Sanctuary is the most beautiful sleep ever made so why not give guests the gift of a sleep they'll never forget.

At the heart of the Sanctuary mattress is the class-leading core sleep system Sensorzone. It was developed as superior mattress support which helps minimise partner disturbance for a greater night's sleep.

The support system is also one of our most durable with individual springs encased in foam. This helps extend the lifetime of your mattress range - an important feature for those in the hospitality industry. This New Zealand made range comes with a 10 year warranty.

Now commercial clients can benefit from our luxurious Sanctuary sleep experience.

Sleepyhead^{***} COMMERCIAL

SENSORZONE HD

In the Sanctuary we have the patented Sensorzone support system, with each spring sitting separately in a high density Dreamfoam core for incredible stability. This support core is our best in class for removing partner disturbance.

KULKOTE COPPER

Kulkote is the latest temperature regulation technology that senses how you sleep to moderate the bed surface for guests who might get too hot or too cold in bed. Copper has been added to keep the mattress fresher as well as help move away any excess heat faster for a more comfortable sleep.

LUSCIOUS LATEX

Our Sanctuary commercial models have a comfort layer of sustainable latex for softness & durability. Natural latex is hypoallergenic and anti-fungal providing a fresher mattress for guests.

NATURAL FIBRES

We've combined the softness of silk with the warmth of wool in the Sanctuary mattress quilting for a natural feel with superior breathability in the bed.

HOTEL FRIENDLY

We've taken Sanctuary and tailored it to ensure it's perfect for a top of the range guest bed. The platform base has legs with castors for easy manoeuvrability, it's flip free and has a fire retardant treated cover.

Sanctuary St Moritz

Treat your guests to a plush, super-comfortable sleep in the Sanctuary St Moritz. It still has the supportive Sensorzone HD core but we've added more to the comfort layers to deliver that plush feel.

Available Sizes: **Q, K, SK, CK**

Sanctuary Tahoe

When you want a feel that will work with a majority of your guests, the Sleepyhead Tahoe is a firm to medium feel. It has the supportive core with the right balance of comfort layers.

Available Sizes: **Q, K, SK, CK**

Sanctuary Moorea

When guests need an extra firmer feel in their mattress, Sanctuary Moorea gives great support.

COMFORT CONVENIENCE

Sleepyhead^{***} COMMERCIAL

Roll-away Bed

Features a fire retardant treated cover and can be rolled between rooms for different room configurations as an extra single or easily stored when it's not needed.

TORQUEZONE SUPPORT

This spring system has the support of New Zealand chiropractors, optimising spine alignment and relieving pressure on the areas in the body that need it the most, particularly around the hips and shoulders.

MADE TO MOVE

This flip free bed is made to easily store away or simply roll it between rooms. The wooden headboard is included and comes with four wheels to relocate this bed wherever it's needed. It also comes with straps to keep this bed as single unit for storage.

The Zip Combo

Sometimes you have two adult guests who aren't happy sharing and need a comfortable single sleep for the night then other times you need the flexibility to use those beds as a King. The Zip Combination gives you both.

It's available for mattresses king size and above with the super king being the most popular choice for a zip combination to allow for generous sized singles. The high tensile zip can be replaced by velcro instead if required and the base joining plates are robust and specifically designed as strong yet easy to remove by housekeeping.
